# About BCCTaipei

British Chamber  
of Commerce in Taipei

## The Mission of BCCTaipei is to:

- Support our members needs
- Promote the UK in Taiwan
- Promote Taiwan
- Facilitate Government Engagement
- Promote Responsible Business

RENEWABLES.

TALENT  
DEVELOPMENT.

CORPORATE  
SOCIAL  
RESPONSIBILITY.

WOMEN  
IN  
BUSINESS.

# About BCCTaipei UKRC

The UK Renewables Committee (UKRC):

- Is a renewable energy industry representation body
- A platform for networking and collaboration
- Plays a pivotal role in articulating concerns to the Taiwanese government, to enhance awareness and understanding of renewable energy

# About the Renewables Industry

**> 16**  
**million jobs globally**

**10%**  
**annual growth**

**15%** target for total electricity  
from renewable sources in Taiwan  
by 2025

**UK is at the forefront of offshore wind**

- Renowned for innovation & supply chain strength
- UK firms drive Taiwan's offshore wind growth

# About the Programme

**Bespoke  
experience**

Crafted by UKRC sponsors & BCCTaipei

**Learn from  
experts**

Work on offshore wind projects and take  
real responsibility

**Exclusive  
access**

Taiwan's Renewable Energy Resources

**2-3 months**

# Training & Support

## **Breadth of experience**

Emerge with fundamental skills and technical excellence required to meet the challenges of working in Taiwan's offshore wind industry

## **Specific tasks/work**

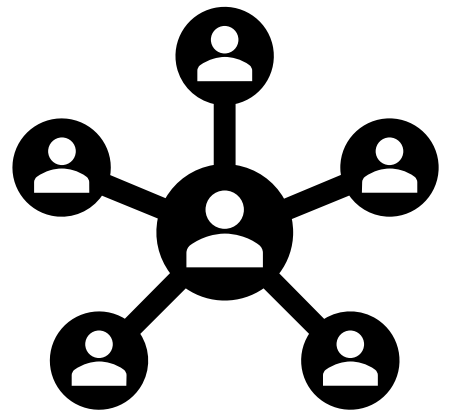

Sponsor providing the internship position, but for all the roles we include a mix of shadowing, purposeful support and independent work

## **Manager/ Mentor**

Interns will have a dedicated line manager/mentor throughout the internship, with review appraisals at the start and end of the programme

# Grow Your Network

## Taiwan academia's research

# Programme Timeline 2026

1

# Internship Opportunities

## Cadeler

3 rotations in 3 months

- Shadow a Senior PM working on a current operations & maintenance project in Taiwan
- Shadow a Senior PM working on a turbine installation project
- Shadow a Senior Commercial Manager working on tenders and partnerships across Asia

You are someone comfortable with fast-paced, collaborative environments, & working to deadlines.

You have an interest in (but not necessarily knowledge of) engineering, contracting, and gigantic ships.

**Internship Vacancy: 1**

## CWIND

1. Project Billing
2. Local logistics arrangements
3. Project tracking, assisting in case execution in Taiwan, and reporting back to supervisors
4. Suppliers/contractors payment process
5. Foreigner's Work Permit Visa Application
6. Assist supervisor with project documentary
7. Conducting administration duties such as booking travel and accommodation
8. Travel as required to support the company including out of hours work

**Internship Vacancy: 1**

**Internship Position:**  
Assistant Project Coordinator

Consulting Group

## JUMBO Consulting Group

JUMBO Consulting Group is a highly experienced and specialised advisory offering procurement, legal, and contract management consultancy services for large civil engineering and construction projects worldwide. Our vision is to help shape a more sustainable future by enabling the successful delivery of renewable energy projects.

**Internship Vacancy: 1**

**Internship Position:**  
Contract Management & Online Education Intern

**Internship Location:**  
Taipei City

## Mott MacDonald Taiwan

Contribute to a variety of renewable energy project services, such as feasibility studies, lenders' technical due diligence and owner's engineer services, across all-project lifecycle stages, including development, financing, design, construction, and operations.

- Support project managers to deliver high quality work that exceeds our client's expectations.
- Supporting business development activities.
- Collaborate with other team members (both locally and globally), across disciplines and sectors, to encourage innovation and open opportunities with connected thinking.
- Attend site visits to gain valuable hands-on experience.

# Internship Opportunities

## NEW POWER PARTNERS

- Develop branding initiatives across APAC
- Develop and update our website, marketing materials and meeting presentations
- Format and improve consultant resumes and profiles in collaboration with HR from Denmark
- Plan and organize quarterly Lunch & Learn sessions
- Support development of Client Representative (CR) tools, including:
  - o Progress forecasting across project scopes
  - o QHSE (Quality, Health, Safety & Environment) flashes
  - o Client-specific KPI reporting
  - o Photo and video formatting and indexing
  - o Inventory management
- Support recruitment searches and candidate identification
- Identify and research new clients and markets
- Onboarding website management

## PKR OFFSHORE CO., LTD

- Operations Support
- Compliance & Documentation
- Vendor Coordination
- Procurement Support
- Payment Process Support
- IPO Readiness Support

**Internship Vacancy:** 1

**Internship Position:**  
Operation team Intern

**Internship Location:**  
Taichung

## Sulmara

- Assist project planning and preparation.
- Participate in project mobilisation and demobilisation activities.
  - Assist procurement and logistics activities.
  - Assist in communicating with authorities on the ground in project locations.
  - Assist in the servicing and maintenance of USVs.
  - Assist on launch and recovery of USV's from quayside/deck.
  - Participate in project and maritime operation Risk Assessments.
  - Acquire knowledge of basic field concepts, survey practices, and survey procedures.
  - Develop knowledge and understanding of survey software and hardware.
  - Develop the ability to understand and assist in calibrations.
  - Assist in data acquisition including online logging and records.
  - Demonstrate an understanding of system calibrations and the effect of calibration on data quality.
  - Attend all daily Job Safety Analysis / Toolbox Talks.
  - Play an active role in the QHSE culture of the business and ensure compliance with relevant regulations.
  - Adhere to the Company's procedures and policies.
  - Perform any other delegated duties or tasks as instructed by your Line Manager.

**Take away  
from the  
programme**

**&**

**What gain to  
your future  
career?**

- ✓ Firsthand insight into the Taiwanese renewables industry
- ✓ Hands-on professional experience with real projects
- ✓ To be treated like part of the team
- ✓ To hold yourself accountable for your own deliverables
- ✓ Attractive hourly pay

And maybe a future job offer?

# Making Complexity Simple

**JUMBO**  
Consulting Group

# Service Offering

Commercial Solutions for the entire project lifecycle.

We offer development management with bid support, contract advisory, supply chain analysis and category management, procurement management, contract and claims management.

## Project Delivery\_

We design, manage and execute the complete procurement and contracting process from end-to-end, ensuring contracts that satisfy our customers risk profile and business case requirements.

We cover all offshore renewable energy scopes, across all phases of the project.

We make negotiated results become operational success by ensure continuity of the project success criteria across all phases.

## Strategic Consultancy\_

We offer Strategic Advisory services across all offshore renewable technologies, led by industry experts and backed by extensive organisational knowledge.

- Value creation in the early stages including bid support
- Supply Chain Advisory and category management: supplier network, pricing, capability and capacity
- Procurement and Contracting Strategy Development and best practice
- Legal advisory and due diligence to ensure contracts are fit for market and bankable

## Training\_

In a growing in numbers and markets, refining skillsets and developing existing and new talent is key for long term success. JUMBO provides in-house and online training solutions to enable personal development that is industry centric and designed to upskill the workforce, in partnership with the Renewable Construction Academy ([www.recoa.eu](http://www.recoa.eu)).

## Some of our Clients

# BCCT Intern Job Description

In this role, you will be involved in two key aspects of our services: Contract Management and Online Education.

## Contract Management

You will support the Contract Management team in ensuring strong governance, structured documentation, and seamless coordination across multiple major contract packages. You will play a key part in the preparation, administration, and progression of approval workflows in a multi-contracting environment.

### key responsibilities will include:

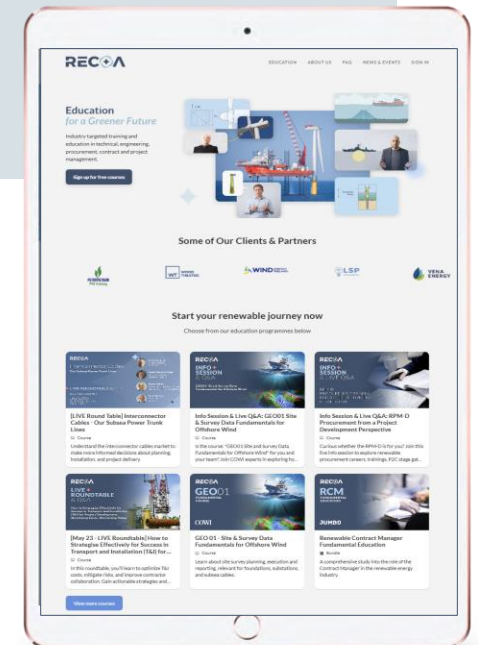

- Coordinating the preparation and submission of formal decision documentation in alignment with internal governance and Delegation of Authority requirements.
- Supporting the administration of invoices, variations, claims, purchase orders, logistics, negotiation mandates, and optionality decisions across major packages.
- Providing day-to-day support to Contract Managers on mandatory compliance, package coordination, document management systems, and tracking administrative deliverables

## Online Education

You will gain hands-on experience in online education, content development, and project coordination. You will contribute directly to the creation and improvement of professional training courses, while developing valuable skills in quality assurance, content management, and cross-team collaboration.

### key responsibilities will include:

- Review and proofread course content to ensure clarity, accuracy, consistency, and alignment with quality standards
- Assist with course updates, content uploads, and general content management within the learning platform
- Collaborate with internal teams to support timely and high-quality course delivery

# Who Are We Looking For?

We are seeking structured, proactive, and motivated young talent who share our vision and are excited by the challenges of working within a rapidly expanding international business within an impactful industry

## **Ideally, you will have:**

- Strong proficiency in spoken, written, and reading English.
- Some familiarity with major infrastructure or energy projects.
- Some experience working within governance frameworks, approval workflows, and structured documentation processes.
- Strong communication and stakeholder coordination skills.
- A methodical and detail driven approach to working in high-volume documentation environments.
- The ability to support cross functional teams and manage multiple simultaneous administrative processes.
- Willingness to travel domestically

## **Take the Next Step**

If this sounds like your next challenge, apply directly or contact **Liz Fang** at [lfa@jumbocg.com](mailto:lfa@jumbocg.com)

By submitting your CV and application to JUMBO Consulting Group, you consent to having your personal data processed and stored in our CV database for recruitment purposes.

181MWp Floating Solar PV  
Project

**Client**  
DBS Cheney Energy

**Location**  
Taiwan

**Expertise**  
Floating solar PV

## First of a kind floating solar PV project

### Opportunity

Mott MacDonald was the Lender's Technical advisor for the **first-of-a-kind floating solar project located in intertidal area** off the west coast of Taiwan.

### Solution

Our services include **technical and E&S due diligence** to drive project financing. Services also expanded to include **supplier qualification assessment** and assessment of detailed design aspects relevant to the complex site environment, to ensure the project risks are well managed and addressed – ensuring the long-term durability and reliability of the project. Mott MacDonald's services also include construction monitoring, performance test and completion review and operation monitoring

### Outcome

The Project reached financial close and is now operational.

**Project**  
FengMiao 1 Offshore Wind Farm

**Client**  
CIP

**Location**  
Taiwan

**Expertise**  
Offshore wind technical advisory

## The first Round 3.1 project to reach Financial Close

### Opportunity

Mott MacDonald successfully supported CIP as the Lender's Technical Advisor for the first Round 3.1 project to reach Financial Close.

### Solution

Mott MacDonald reviewed the technical aspects of the project, including participants, design, certification, contracts, EYA, construction execution methodology, permits and financial model technical inputs. Working with the developers from an early stage, we were able to give feedback on the project from the point of view of the lenders in order for the project team to implement our recommendations during the development stage.

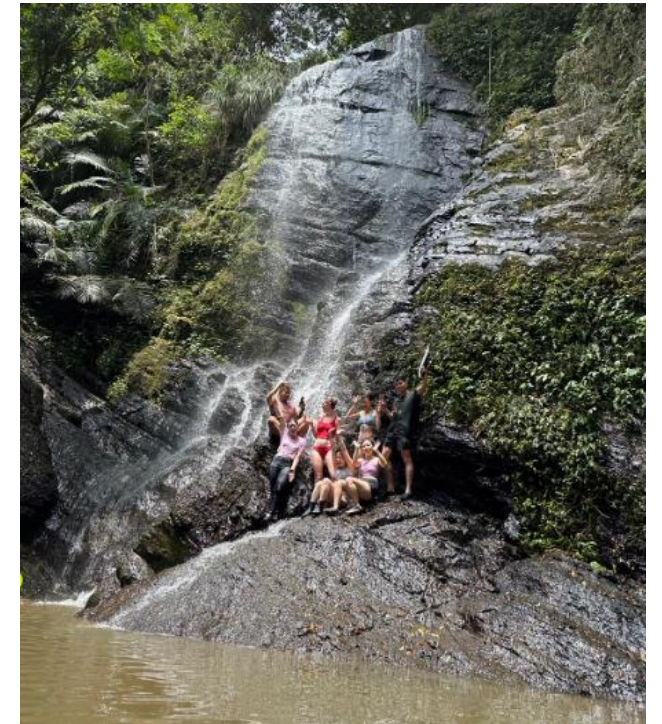

Mott MacDonald's extensive experience on offshore wind owner's engineering and design projects globally, combined with deep local expertise and presence in Taiwan, was crucial for achieving a timely financial close. As LTA, Mott MacDonald was responsible for working closely with the Fengmiao I team over the course of a year and a half to rigorously and proactively identify risks and mitigations, avoiding costly delays to financial close.

### Outcome

The Project reached Financial Close in 2025, and Mott MacDonald will continue support construction activities up to the Commercial Operation Date. The project is a significant milestone for renewable energy in the country as the first of Taiwan's Phase 3 offshore zonal development to achieve financial close and enter the construction phase.

# Mott MacDonald in Taiwan – sports and recreation

M

MOTT  
MACDONALD

M

THANK YOU

# New Power Partners (NPP) is...

...a **global consultancy** supporting complex offshore wind projects from planning to execution

...specialized in bridging the gap between strategy and execution

...a hands-on partner for developers and tier 1 installation contractors

...looking to grow fast in APAC, with Taipei as our regional hub in one of the world's most active offshore wind markets.

# As Our Intern, You...

... **take real ownership**, helping drive branding, marketing materials & internal tools that the APAC team will actually use.

... **shape how we operate**, supporting recruitment, onboarding, and company initiatives; your ideas can turn into real changes.

... **get involved across the business**, from proposals & market research to professional development & events.

# We Are a Great Fit If You...

... **enjoy engaging with people**, asking questions and building connections naturally.

... **take initiative**, spotting things that can be improved and acting on them without waiting.

... **work independently** but know when to ask for help and when to run with something.

... **stay organized and adaptable**, keeping priorities straight even when things shift.

... **think ahead**, connecting the dots and seeing the bigger picture instead of just following steps.

嘉時航運股份有限公司

## Company Milestones

PKR Offshore website

UKRC - Internship Programme 2025  
Presentation on PKRO in Taiwan

**2018**

- Established in Taipei under “POSH Kerry Renewables” to serve Taiwan’s offshore wind industry. Secured first vessel charter for Yunlin Offshore Wind Farm.

**2019**

- Provided Guard, Noise Mitigation, and Towing services for Yunlin OWF. Successfully imported and reflagged two CTVs to support Formosa 1 Phase 2.

**2020**

- Opened Taichung office for fleet support. Imported and reflagged two AHTs for Greater Changhua OWF operations.

**2022**

- Acquired by SGX-listed Marco Polo Marine; announced new CSOV project for Asia-Pacific.

**2023**

- Signed MOU with K Line Wind Service for Japan market. Formed strategic partnership with NSEL in South Korea. Secured CSOV framework agreement with Vestas Taiwan.

**2024**

- Signed CTV framework agreement with Siemens Gamesa and launched first Korean-flagged CTV charter in South Korea.

**2025**

- 1 CSOV with 3 New CTVs successfully delivered and operating in Taiwan

# Our Fleet

## Vessel Type

## Commissioning Service Operation Vessel (CSOV)

## Crew Transfer Vessel (CTV)

# Office Life

# Intern Job Description

## Taichung Operation team

### ✦ Operations Support

Assist in vessel scheduling, daily monitoring, and safety checks.

### ✦ Compliance & Documentation

Compile regulatory documents and update compliance reports.

### ✦ Vendor Coordination

Support communication with suppliers, shipyards, and maintenance teams.

### ✦ Procurement Support

Support procurement processes for spare parts, equipment, and services, including RFQs, price comparisons, ordering, and delivery tracking.

### ✦ Payment Process Support

Assist with internal payment request procedures, ensuring proper documentation and compliance with finance review standards.

### ✦ IPO Readiness Support

Support and learn IPO-related processes and system setup, such as internal controls, documentation practices, and compliance operations.

# Internship Success Stories at PKR Offshore

🎓 One intern transitioned to a full-time position after just two months.

👛 The other intern extended from a short-term to a long-term internship

This reflects our strong commitment to providing interns with **real career development opportunities** and **long-term planning** within the company.

Internship 2026

Who we are

# Innovation for Seabed Intelligence

Sulmara provide **agile, disruptive** and **innovative** on-site, remote, and autonomous marine surveys.

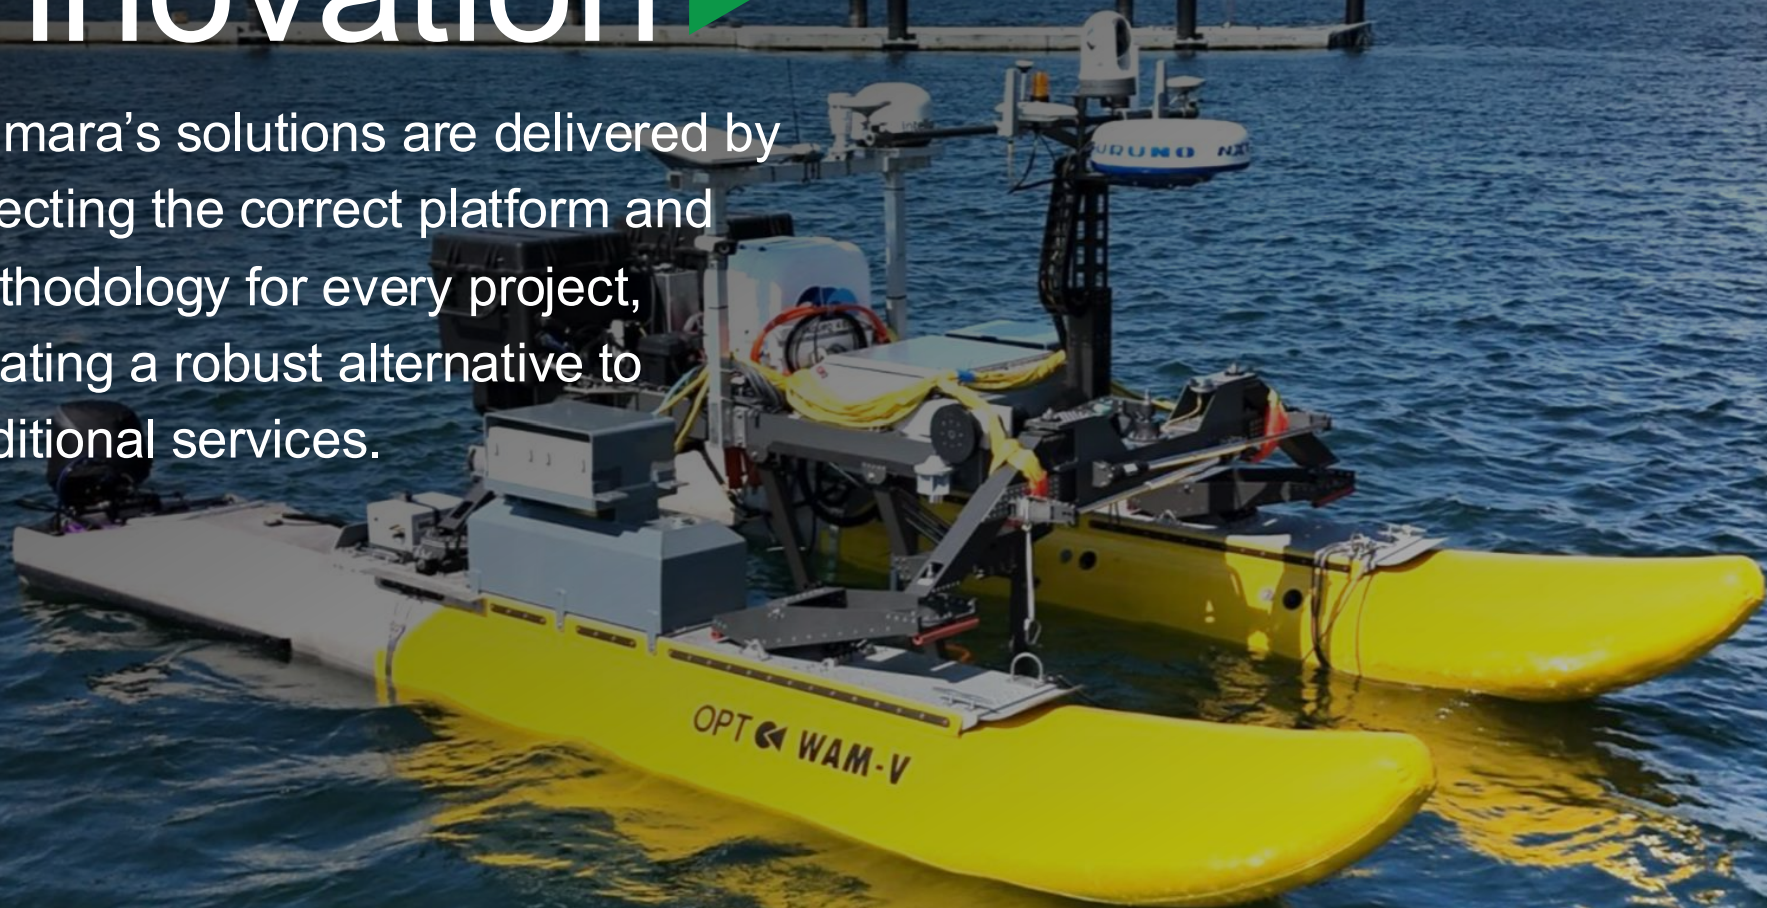

Our focus is transforming complex seabed data into actionable intelligence, at speed.

Why we stand out

# Innovation ▶

Sulmara's solutions are delivered by selecting the correct platform and methodology for every project, creating a robust alternative to traditional services.

What we do

# Mapping the Seabed

We adopt a multi-platform approach, combining conventional vessels and USVs, to ensure full data coverage and data continuity from the offshore site to landfall.

Sulmara Internship

# What can you Expect? ►

- Time spent in our office in Taipei but with frequent site and offshore visits
- Structured training in the principles and practice of offshore surveying
- Hands-on training in equipment preparation, operations and maintenance
- Experience of innovative robotics used in seabed mapping
- Opportunity to work together and learn from leading survey and engineering professionals at Sulmara
- Upon completion of the program the intern will have received a solid grounding and will be well-placed to enter the industry
- Sulmara have permanently employed two interns from the past four years, proof that the internship works!

Ready to  
welcome you.
